RE: Regional Trustee Meetings

In October, the Minnesota Hospital Association will offer a series of regional trustee meetings at locations throughout the state.

The meetings will be held:
- Wednesday, Oct. 11 – Lakewood Health System, Staples
- Tuesday, Oct. 17 – St. Luke’s Hospital, Duluth
- Thursday, Oct. 19 – Redwood Area Hospital, Redwood Falls

These regional meetings will feature a presentation focusing on the board’s role in assuring quality and patient safety in your community by Tania Daniels, MHA’s vice president of quality and patient safety.

The Board’s Role in Assuring Quality and Patient Safety for Your Community
What is the Board’s role in assuring that quality and patient safety is an integral part of the culture in your facility? In a myriad of acronyms and hundreds of quality/safety measures, it can be challenging for any health care organization to identify organizational strengths and opportunities to continuously improve quality of patient care. Fundamental quality/safety measures, such as organizational culture of safety and the impact of health disparities on health outcomes can be confusing to both hospital leadership and trustees. Join us as we focus on the fundamental role of governance to assure a high-quality hospital and health system for the patients and communities you serve.

These meetings are not only an educational opportunity for trustees, but also provide an occasion to network with other board members in their area.

Registration and dinner will be held from 5:30 – 6 p.m., followed by the program and time for questions and answers from 6 – 7 p.m.

MHA Board Education Certification
Trustees who participate in this program will earn 1 credits under the Quality and Patient Safety (QP) component of MHA’s Board Education Certification program.

On the next page you will find a registration form for the meetings. Please fill out the information and fax or mail it to MHA by Oct. 6. There is a $20 registration fee per person, per program to cover the cost of program materials.
