

The Miami Children's Hospital Humpty Dumpty Falls™ Scale and Prevention Program

Preventing falls, enhancing safety.

Patient Safety is a top priority for hospitals nationwide. Pediatric safety prevention is a focal point of the educational endeavors at Miami Children's Hospital (MCH). Over the course of the past year, our facility has taken the lead in developing a tool to prevent pediatric falls and thereby enhance safety. This fall prevention program has been implemented, tested and proven to be an effective tool in the prevention of unintentional injury due to falls.

Miami Children's Hospital is pleased to inform you that its highly effective and acclaimed, Humpty Dumpty Falls™ Scale and Prevention Program is now available as a training module. Included in the kit are:

Falls Scale
