

The Importance of Information Management in Health Care – Jean Turvey

Please take a moment to answer the following questions to earn 0.25 credits MHA Board Certification credits under the quality and patient safety category. Return the completed form to Christy Hammer at chammer@mnhospitals.org.

Name:

Hospital:

Email:

1. As a hospital board member, I should expect to receive reports about hospital care and services that contain both quantitative data and qualitative information.

True

False

2. Hospital quality data is important because it measures patient outcomes. It does not, however, have any impact on the amount of hospital reimbursement by payers like Medicare and other insurers.

True

False

3. Reviewing and approving medical staff reappointments is one of the board's most important roles.

True

False
