

HOSPITAL SOLUTION OFFER ONE

Online Application Processing

Associate MCC Hospital Membership

Allows MCC Member Hospitals to receive limited use of Aperture's ApplySmart solution to download provider enrollment application forms (MN Uniform Application & privilege forms) in PDF.

- ✓ Minnesota Hospitals, as a benefit of its active MCC membership, can purchase access to set up and control entity specific documents (e.g. privilege forms) to receive with MN Uniform Application
- ✓ Terrific for small organizations who have paper and US Mail based operations to transition to a more modern, functional, and quicker approach.
- ✓ Control business rules to ensure a complete application is submitted
- ✓ Receive a PDF copy of the initial or recredentilaing application and additional documents real-time through a limited use license for Aperture's ApplySmart
- ✓ Pricing: \$5 per application received; payable by credit card

HOSPITAL SOLUTION OFFER TWO

Web-based Credentials Management

Receiving Organizations Limited Time Offer

The first 6 Receiving Organizations to sign-up before March 1, 2017 receive 6 free months of CredSmart Suite

- ✓ Trial performance period for Receiving Organizations to use a more functional, efficient, and compliant solution with minimal risk.
- ✓ Get real-time integrated receipt of enrollment details via ApplySmart (used by nearly 80% of Minnesota practitioners to maintain compliant enrollment and credentialing application data and documentation)
- ✓ Achieve leading operational efficiencies via automated PSV interfaces instead of web-crawling and manual methods.
- ✓ Requires a 12 month SaaS agreement; includes a no-penalty cancellation at 6 months, excludes PSV pass-through fees.

CredSmart provides unprecedented automation of credentialing processes. Increase productivity and take control of the credentialing process through the following functionality:

- ✓ More than 1,500 data elements available
- ✓ Customizable privilege management
- ✓ Auto-reminders for expiring provider credentials
- ✓ Mass/Batch updates to provider files
- ✓ Automatic generation and tracking of verification attempts
- ✓ Audit trail with change history

SmartSource is included in CredSmart

From a single-page in a provider's electronic record, users simply identify the desired primary sources for SmartSource transactions. With a **single-click**, SmartSource populates primary source data directly from the primary source.

A growing list of Primary Sources available through SmartSource:

- ✓ NPDB/HIPD
- ✓ State Licensure
- ✓ DEA
- ✓ Education
- ✓ OIG
- ✓ ABMS
- ✓ AOA
- ✓ AMA
- ✓ FSMB
- ✓ Nursys
- ✓ Criminal Background Check
- ✓ Board Certification
